

AMENDMENT TO THE DRAWING(S)

Figs. 1-5 have been amended. The attached sheets of formal drawings replace the original sheets including Figs. 1-5.

REMARKS/ARGUMENTS

After review of the Office Action mailed August 12, 2004 and of the Response thereto filed October 6, 2004, correction of an additional typographical error in the specification at page 8, line 25 and entry of corrected drawing Figures is requested. The Office Action had mentioned incorrect use of numbers 32 and 36 in the specification and drawings. These are corrected herewith. Further, reference numbers 61 and 62 had been omitted in Fig. 1.

In the replacement drawing sheets, for which entry is requested, reference numbers 61 and 62 have been added to Fig. 1. In Figs. 2 and 3, reference number 32 has been deleted. In Figs. 4 and 5, reference number 36 has been changed to reference number 32. At the present time, therefore, the element 32 is consistently identified as the jig in both the specification and the drawings and the element 36 is correctly shown once in Fig. 3.

As these amendments merely clarify the use of reference numbers without changing the disclosure and are consistent with the requirement for correction in the Office Action noted above, entry of this Rule 312 Amendment is requested.

I hereby certify that this correspondence is being deposited with the United States Postal Service with sufficient postage as First Class Mail in an envelope addressed to: Mail Stop Amendment, Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450, on February 10, 2005:
